VESTA MINES MUST PRODUCE ADDITIONAL SUPPLY OF COAL

Completion Of By-Product Ovens Makes Additional Demand

TWO MILLION TONS ANNUALLY

With the completion of the first battery of by-product coke ovens of the Jones & Laughlin Steel company at Hazelwood, the mines of the Vesta Coal company will be called upon to supply an additional amount of fuel to keep this big plant in operation.

The first coke from these new ovens were drawn on Thursday, and the product was equal to the expectations of the steel company and the builders. Work on the second battery of 60 ovens is also under way and it is expected they will be in operation within three or four weeks. This will be the fourth largest by-product plant in the world, the Clairton plant of the Carnegie Steel company being the largest, the second being at Gary, Ind., and the third at South Bethlehem, Pa.

When fully completed the Jones & Laughlin plant will have a requirement of two million tons of coal annually, or the equal of over 52,000,000 bushels of coal, the entire amount of which will be shipped from the mines of the Vesta Coal company in the fourth and fifth pools of the Monongahela river.

The plant will produce 1,300,000 tons of coke 12,000,000 cubic feet of gas, 16,000 gallons of tar, 25,006 gallons of ammonium sulphate and 6,000 gallons of benzol. The coke, gas and tar products will be utilized by the company in the operation of its plantss. while the sulphate is in demand as a ferilizer and the benzol as a motor fuel.

Another battery of by-product ovens is being constructed by the Domestic Coke company of Cleveland, Ohio, at Fairmont, W. Va., which will cost $3,500,000 and is now about half completed. It will require about 1,000 tons of coal daily to keep them in operation.

Albert Sabo. on his own behalf of his son John Sabo has filed a suit against Joseph Fillipozak, in which damages are sought for personal injuries sustained by the minor son at Donora. August 16, 1918. The lad was injured when a brick pillar, a portion of the support of a fence, fell over and upon the boy. He suffered a broken leg and other injuries.

The boy at the time was playing along the sidewalk in front of the defendant's property. The brick pillars supporting at intervals the fence, were in bad repair and some had fallen. It is averred that the pillar which fell and injured the Sabo boy had the appearance of being solid. The boy seems to have run into this pillar which toppled over and in falling carried the boy down with it.

VEST NO. FOUR RESUMED ON TUESDAY

Work at eVsta mine No. 4 at California, began on Tuesday after a shut-down of about two months. On Saturday last men were hired at Daisytown and on Monday at California. The resumption of work at No. 4 means employment for a large number of men, although comparatively few of them have been idle, because of being employed at other collieries.

ANALYSIS SHOWS BOND OPPOSITION

According to an analysis of the special bond election held on Tuesday last, it is found that a majority of the boroughs and townships were in favor of that method of raising funds with which to improve the highways of the county.

Detailed figures show that the 32 boroughs and one city, 28 boroughs were in favor of the issue by a vote of 3 to 1, while in the four boroughs and one city the vote was very even. Two of the boroughs take in a large scope of territory, where the vote was unfavorable. while in Monongahela the issue was turned down by one vote.

In the 33 townships the vote of the 19 that carried for the bond issue was almost 3 to 1 in favor of the issue. while the vote of the 14 was nearly 2 to 1 against it. This indicates where the chief opposition to the measure came from, for in the 14 townships, moreover, was polled nearly a third of the total vote cast in the county against the issue. Townships which are now in the mud and which will receive no direct benefit from the bond issue were against it, but the action of other districts which have received benefits in the way of good roads in voting down the issue was unexpected.

ELLWOOD REUNION AT OAKLAND PARK

The annual reunion of the Ellwood family was held on Thursday at Oakland Park, which was largely attended. Four generations of the family were present and the following officers were elected for the ensuing year: President, Harry L. Ellwood of Monongahela; vice president, Harry N. Neelan of Denbo; secretary, John W. Grable of Pittsburg and treasurer, Robert J. Ellwood of Denbo.

WANTED—I want to rent a house in Charleroi, four, five or six rooms. If you have one, or know of one, notify 27 Mail office.

Social by Iris Rebekah Lodge, Friday evening June 20. Benefit of Ben Avon I. O. O. F. Orphan Home All welcome. 12-t3-*

Official Vote Almost Two to One for Bonds

The official vote in Tuesday's election on the proposal to issue one million dollars in bonds to be used in road improvement in this county was: For the issue 6,568; against 3,366. The final returns from all precincts in the county made no material change over what had been reported on Wednesday, there being a gain of 22 votes for the issue and five less for the negative. This was caused by error in the East Pike Run precincts one being duplicated and another left out.

The vote, while comparatively small, is considered representative of the sentiment of the county, which is practically two to one in favor of the bonds. With the question finally settled it is expected the commissioners will arrange at once to issue possibly about $200,000 this year, with the remainder at intervals during the next four years.

COMPELLED TO TAKE A VACATION

Owing to his impaired health since his return from overseas, Capt. William Houston, night superintendent of the Pittsburg Steel plant, has been compelled to relinquish his duties, and on Wednesday left for his home in Uniontown. Capt. Houston expects to spend some time in the mountains in an effort to regain his lost health and will then resume his duties at the Monessen mill.

Joseph Kramer, another returned soldier, found mill work too strenuous for his weakened condition following a year's overseas in the thickest of the fighting and resigned his position. He has also gone to his home in Uniontown. Both men are well and favorably known in Monessen and their many friends hope they will speedily recover their usual health.

BOARD BREAKS OVER OWN RULE

It is reported that the citizens of Monessen are somewhat perturbed over the action of their school board, taken on Wednesday last, at which time the members present showed a disposition to get away from the budget system, which apparently had been adopted at a previous meeting.

At this first meeting the budget was fixed upon as the basis of the re-election of about 125 teachers at an accepted salary, from which the school millage was fixed. At the session last week, which was attended by a bare quoram. the request of S. S. Townsend for an additional increase from $25 to $35 a month for coaching work was allowed by a vote of three to one.

The public schools of Monessen cost $150,000 last year and ran in debt to the extent of about $20.000 by using up the sinking fund, which had to be made up this year by an increase of three mills over what the school tax would have been had the board remained within its means. This year 17 mills will raise approximately $200,000. replace the sinking fund and allow for a considerable increase in expenditures.

JURY FINDS FOR BOTH DEFENDANTS

In the suits of Luther H. Frye against the Taxi Transportation company, and the Taxi Transportation company against Luther H. Frye, both suits for damages, which were tried on the same evidence in the county courts during the week, the jury returned verdicts in favor of both defendants. Frye brought the first suit against the Taxi company for damages to his automobile which was in collision with one of the transfer buses of the taxi company, last December. The Taxi company then brought suit against Frye, alleging reckless driving on his part, and that he was on the wrong side of the street at the time of the accident. It was what might be called a 50-50 verdict.

MANY CHAUTAUQUA TICKETS BEING SOLD

The young ladies selling tickets for the Lincoln Chautauqua course are meeting with considerable success and all of them report great interest throughoout town over the coming series of entertainments. Miss Mary I. Bradley is leading in the race at the report made this morning, with Miss Mabel Orange second, Miss Felicie Bosson third. Miss Ella Murray fourth and Miss Dorothy Shipe fifth. Miss Higgins has dropped out on account of illness and three of the young ladies had not yet made a report this morning.

A representative of the Lincoln Chautauqua Mr. Rose arrived in town this morning and reports great enthusiasm throughout the country over the Chautauqua programs. Mr. Rose is here arranging the final details for his company, which will begin its series on Tuesday next at 10 o'clock in the morning.

BORD-LABORIE NUPTIALS THURSDAY

Announcement has been made of the marriage of Miss Victorine Laborie, daughter of Mrs. Dennie Laborie of Crest avenue to Regis Bord of Pittsburg. The ceremony was performed in Pittsburg Thursday. Immediately following the ceremony the couple left on an extended trip through the east.

NEW BILL PROVIDES GENEROUS INCREASE TO TEACHERS' SALARIES

CHILDREN'S PLAYGROUNDS OPEN IN MONESSEN

The children's playgrounds were opened in Monessen on Monday morning and attracted a large number of the younger folks, who enjoyer the various forms of amusement. The grounds will be open for ten weeks and will be in charge of competent directors, who will be on duty each day from 8:30 to 11:30 a. m. and 2 to 5 o'clock in the afternoon.

TAXI PASSENGERS HAD EXCITING TIME

Passengers on one of the busses of the Taxi Transportation company had a very exciting experience about 12:25 last night, when the machine caught fire while on its way to Belle Vernon.

When the car left Fifth street, Chaarleroi, it has twelve or fifteen passengers. When near the turn in Speers borough some of the passengers noticed burning gasoline on the brick pavement and a moment later they noticed that the car was on fire under the seat of the driver. The chauffeur, James Victor, also discovered the fire at that time and directed all passengers to get out as quickly as possible. Some managed to get out by the front door, but quite a number had to make their exit through the rear window. All passengers managed to get out safely and without injuries, but were powerless to do anything to save the car. The flames completely filled the body of the car within a few minutes after fire had been discovered. It was a complete wreck and will likely be a total loss. It was one of the Ford cars and it is presumed the fire caught from gasoline which was leaking into the engine.

TRAIN HITS TRUCK AT R. R. CROSSING

The passenger train due at Charleroi at 12:40 p. m., north bound, in charge of Conductor Mark McDonald struck a truck loaded with ice at the Phillipsburg crossing at East California Thursday noon. Two men and two boys were on the truck at the time, the boys and one of the men being slightly injured in the accident. The train was coming on time at that point, when the truck attempted to cross the tracks in front of it. The engine struck the truck and tossed it over to the side of thetracks, badly damaging the machine and spilling the load. The injured were put aboard the train and brought to Charleroi, where Dr. Smith was called to attend their injuries. They were not seriously injured.

State Will Provide a Certain Amount of Funds Necessary

MEASURE WILL PASS ASSEMBLY

What is known as the Woodruff teachers salary increase measure was whipped into what is now pronounced its final shape, and was presented to the Senate at Harrisburg Wednesday night, following a conference between Governor Sproul, state educational officials, teachers and members of the legislative appropriations committee. The bill calls for a yearly increase of $3,000,000 and will likely make the appropriations for schools for the next two years $24,000,000.

The bill provides minimum salaries for holders of provisional certificates of $60 per month, for professional certificates $70 a month and for state and county permanent and college professional $80 per month.

Each teacher or other instructor in second, third or fourth class school districts who during the past year received less than $100 per month and who hold other than provisional certificates are to receive a 25 per cent increase in case their increase under the provisions of the new law is not over 25 per cent of their present salary. Teachers receiving $100 to $150 per month are to get 20 per cent increase; between $150 and $200 an increase of 15 per cent, and over $200 an increase of 10 per cent.

In districts like Charleroi the state will pay increases as follows: Provisional certificates $5 per school month; professional or state normal certificate $12.50 per month; state normal school diploma, county or state permanent or college professional certificates $20 per month. The remaining portion of the increases are to be paid by the school districts.

LOCALS LOSE THE OPENING GAME

The Charleroi base ball team lost a closely contested game to the Pittsburg Athletics at the local park last evening, the score being 7 to 6. The locals played a good game considering the amount of practice they have had this year, the contest was featured with home runs by Boucher and Dawson, while the latter also had a double to his credit. The visitors hit Braithwood quite hard but good fielding on the part of his supporters kept the score down. The second game of the season will be played tomorrow afternoon at 3:30, when the Beltzhoover team will cross bats with the locals.

STATING THE ISSUE

The debate which is now on in the United States Senate on the Knox resolution, which, is passed, will demand that the League of Nations covenant be divorced from the peace treaty, that it may be debated upon its merits, and not in conjunction with the terms laid down by the peace conference, will be intensely interesting and no doubt very informing on this great question. Incidentally President Wilson is coming home about the first of the month, and it is reported he will make a tour of the country to make an "exposition" of the covenant and its relation to the United States. The Pittsburg Gazette Times, discussing this intention says:

"Beautifully sanguine, not to say partisan, is the editor who announces that "the President will go forth for exposition, not for battle," referring to the proposed swing around the circle by Mr. Wilson to present to the people his views on the league of nations scheme. All Americans should welcome every opportunity that can be afforded them to secure enlightment on this device on which the minds of patriotic men divide sharply. While we think it were better for the country that the President, after more than six months of absence form his post of duty, should buckle down to the tasks which are his to perfrom in conformity with constitutional mandate, we shall be glad to have him elucidate a great deal that is now incomprehensible with respect to the league project. But we have grave doubts that we shall know, after he has spoken a dozen times, any more than we know now.

"Exposition we need and the more convincing t he better. But nothing in the past performance of President Wilson warrants belief that he will supply it. Rather, we expect him to sally forth with a chip on his shoulder. America found nothing of enlightment in thetwo speeches which he delivered during his brief visit to his native land last February. These efforts bristled with challenge and were remarkable for their paucity of information. Certain Senators have accepted the challenge and are prepared to discuss the league covenant and the peace treaty throughout the country. As we understand the administration project President Wilson's speaking tour is designed to refute and confute the senatorial utterance. If they do, well and good. But in the nature of him he will go forth for battle and the exposition we so much desire will not be forthcoming. Nevertheless, however the rhetorical contest may develop, we adjure Americans to listen to or read carefully that which is put before them by both sides and to form their judgments from such acts as are made available and from nothing else.

THE FUTURE OF THE CRIPPLE

A resident of the State of Pennsylvania is injured in accident. In case he is not possessed of independent means what does the future hold in store for him? He will go to a hospital and receive care for a limited length of time. He cannot be kept long owing to the pressure on the average hospital for accommodations.

He goes out from the hospital, usually before he has fully recovered his health. He may have been so handicapped by his accident that he will not be able to go back to his former job. Yet no plan is made for him and he is set adrift on the community. Though this seems unjust, it is not accurately within the province of a hospital to plan the economic future of its patients. This duty logically belongs to another social agency which should supplement the work of the hospital.

In thousands of cases the service of such an agency would turn the balance between future dependence and future self-support. Its work would effect a saving of untold amount each year in preventing dependents and transforming men from consumers into producers.

In spite of the logic of such a system there is no agency to provide economic assistance to supplement the hospital's medical and surgical cure. It is high time that such provision were made.

Senate Bill No. 996, introduced by Senator Smith, and now in the final stages of its consideration by the Pennsylvania Legislature, makes just such provision. Under its terms disabled citizens will be ensured the treatment they need, training for a new occupation, placement in a job, and general oversight of their interests until they are back on their own feet again. It extends to them not charity but a chance to make their own way in the world. It is a chance that the Commonwealth of Pennsylvania cannot afford to deny.

WORK OF POLITICIANS

Says the London Post:—"Popular sentiment in America does not run in favor of England. On the contrary, it is suspicious over English activities in engneering the League of Nations, which it regards as a subtle influence to undermine American independence. Now, let us say to our American friends that there is as much suspicion of the league here as there is in America. If the Americans don'a want it, neither do we. It has been foisted upon us both by politicians.

NO BOOM FOR GERMANY

Thought of Germany as a member of the league properly is highly offensive. The smell of blood still is on her hands. The smoke has hardly blown away from thetowns she has burned. To sit down with such a nation when there is no pretense of repentance is profoundly abhorrent. It seems a mockery of the peace and to compromise honor. So emotions arise against what looks like a betrayal.

The new styles in gowns for women may be "shocking," but the men who pay for them are probably more concerned about their cost.

MACHINERY VERSUS CRUDE HAND LABOR

American Production Methods the Theme of Educational Film

A question that is often asked in connection with the recent war with Germany is, "How did America, in the space of months, overcome the twenty or more years' start that Germany had in the manufacture of war materials of every description?

Those who know answer the question in three words, "By quantity production." But this answer means little to the average person who has not seen the American method of quantity production in actual operation.

The educational features starting at the Majestic Saturday, June 21 will give such people a clearer insight into how the feat was accomplished. The motor car industry, which has contributed so much to the manufacturing world in the way of straight line production methods and the elimination of lost motion and he-handling of materials is the industry featured.

Whether you are particularly interested in motor cars or not you will be fascinated by the combination of precision and magnitude passing before your eyes. Close-ups of the important operations are shown liberally, and anybody witnessing these typically American methods of building cannot but feel a thrill of pride at the achievements of his countrymen in the mechanical world.

These films have been adopted by the United States Government as a part of their educational series.

These pictures were taken at the Buick Factory, Majestic Theatre June 21, 1919. 14-t1

MANY WILL RESUME THEIR COLLEGE COURSE

A very heavy percentage of the men registering for the Summer School classes at the University of Pittsburg are students who completed one or more years of college work before entering the army or navy, and who now, following their discharge from the service, are doing summer work to enable them to make up part of the lost ground so that they may finish their university courses with their respective classes. This group added to the usual large number of school teachers and principals and students doing special work preparatory to entering professional schools will give Pitt the largest number of students ever enrolled for summer study here.

A special feature this year will be a course for athletic coaches, taught by Dr. George McLaren, Pitt's All-American fullback. Dr. McLaren, who graduated at last week's Commencement, was a star also in basketball and track, and has been appointed coach for next year at the Kansas State Normal College. He will instruct high school coaches in the method perfected by Glenn Warner, the nationally famous coach of Pitt's teams in the summer school.

The summer session opens June 30 and continues for 8 weeks each week being featured by a series of lecturers and conferences by speakers of national prominence. Dr. Lewis M Terman of Leland Stanford University and the National Research Council is the special lecturer for the first week. Among the others are Congressman Simeon D. Fess, Dr. David Snedden, Dr. D. D. Lescohier and Dean Eugene Davenport.

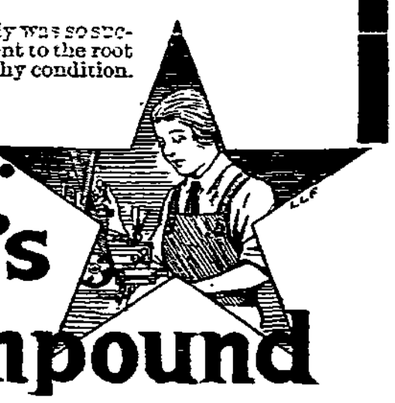
WAR SERVICE FOR WOMEN

REQUIRES HEALTH AND STRENGTH

When was there ever a time when women were doing so much for mankind—and when was the health and strength of our women more vital to the very existence of our country. We can safely say Never. Their sacrifices, their industry, their courage, their patriotism is beautiful beyond words of description. But what of the poor one who wants to help but cannot because she is oppressed by some feminine disorder. To such we recommend with utmost confidence our successful old remedy and insert following a letter from one who proved its value.

Newark, N. J.—"For about three years I suffered from nervous breakdown and got so weak I could hardly stand, and had headaches every day. I tried everything I could think of and was under a physician's care for two years. A girl friend had used Lydia E. Pinkham's Vegetable Compound and she told me about it. From the first day I took it I began to feel better and now I am well and able to do most any kind of work. I have been recommending the Compound ever since and give you my permission to publish this letter."—Miss Flo Kelly, 370 South 14th Street, Newark, N.J.

The reason this famous root and herb remedy was so successful in Miss Kelly's case was because it went to the root of her trouble, restored her to a normal healthy condition.



Lydia E. Pinkham's Vegetable Compound

Bruce & Schurk, 611 Arrott Bldg., Pittsburg, Pa. Phone Court 1240. 14-t1-p

New York City has one telephone for every ninth resident and one divorce for every ninth marriage. Whether the one employed by restless idlers helps forward the other the statistical record fails to state.

Having forfeited the world's sympathy, Germany seems to find it necessary to work over time pumping up sympathy for itself.

P. F. Chalfant, formerly of the Mail, now a member of the editorial staff of the Beaver Times, was a caller in Charleroi Thursday evening.

PHYSICALLY FIT AT ANY AGE

It isn't age, it's careless living that puts men "down and out." Keep your internal organs in good condition and you will always be physically fit.

The kidneys are the most overworked organs in the human body. When they break down under the strain and the deadly uric acid accumulates and crystallizes look out! These sharp crystals tear and scratch the delicate urinary channels causing excruciating pain and set up irritations which may cause premature degeneration and often do turn into deadly Bright's Disease.

One of the first warnings of sluggish kidney action is pain or stiffness in the small of the back, loss of appetite, indigestion or rheumatism.

Do not wait until the danger is upon you. At the first indication of trouble go after the cause at once. Get a trial box of GOLD MEDAL Haarlem Oil Capsules, imported direct from the laboratories in Holland. They will give almost immediate relief. If for any cause they should not, your money will be refunded. But be sure to get GOLD MEDAL. None other is genuine. In sealed boxes, three sizes.

EIGHTH WONDER
OF THE WORLD

You tell me nothing—I look at your eyes I look at your tongue. I feel your pulse. I will tell you the condition of your system. I take your own blood and make a serum or anti-toxin out of it, put it back in the system again, and obtain remarkable results. Eighty per cent of patients, the run of a doctor's office, benefitted or cured No disease this blood treatment will not benefit or cure. I treat successfully Consumption, Bright's Disease, Diabetes Dropsy, Bronchitis, Goitre, Arterio-Schlerosis, Rheumatism, Cancer. All skin diseases, such as Eczema, Itch Puritis, Psoriasis, Ulcer, etc. Bladder troubles, Kidney troubles, Varicocele, Hydrocele, Catarrh, Stomach troubles, Liver troubles. Hemorrhoides, (Piles) and Rupture by the injection method. Also use 606 and 914. Vaccines, other serums, bacterins, etc., when needed. Will absolutely give you the best treatment you ever had. I am a registered graduate physician of 40 years' experience. R. F. Strayer, M. D. office 1509 Carson street, South Side Pittsburg, Pa.

AT GRADUATION TIME

With school days ended graduates are asking themselves "What of the future?" Practical plans for them NOW mingle in their thoughts with visions seen beyond.

These visions need not be unattainable dreams. The "will to win" makes dreams come true.

Enthusiasm and determination are the great spurs to success. Young man, young woman---all who are starting out in life today---direct your enthusiasm wisely---make your determination sincere!

This institution encourages and cooperates with young people. We advise all to get the save-and-bank habit early and stick to it through life. It pays!

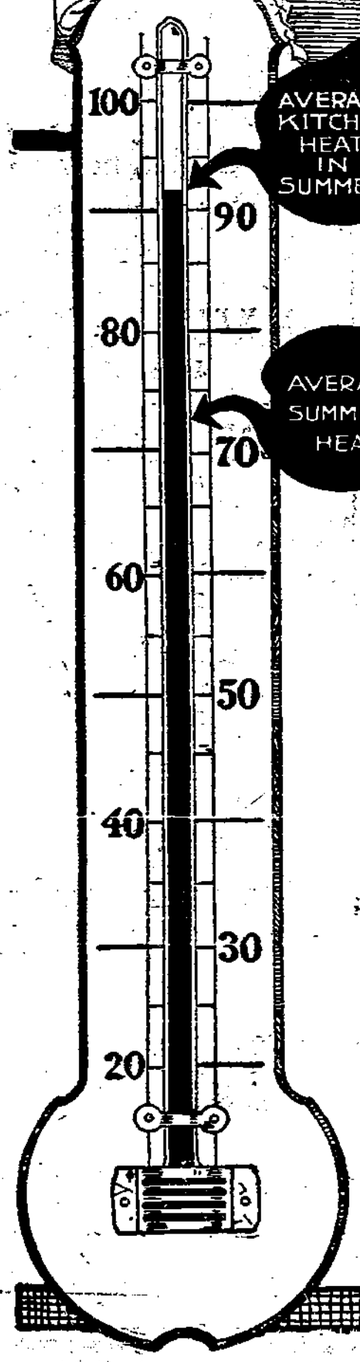
HOOSIER

— the Kitchen Cabinet that saves miles of steps



$1 Turns Summer Drudgery Into Summer Comfort

THESE are months when household tasks are hardest to endure; when you need to reduce kitchen work to a minimum. These, then, are the days when you need a Hoosier Kitchen Cabinet most. For this wonderful kitchen helper enables you to do your work in much less time and it saves your energy for enjoyable things.

Come Out of the Kitchen
Spend Your Time Where It's Cool

Every housewife is entitled to leisure—to the fullest enjoyment of summer pleasures. Hoosier will help you to gain these hours. And you can have a Hoosier placed in your kitchen for ONE DOLLAR. You need only select the model that pleases you most, join the Hoosier Club by paying ONE DOLLAR and its many conveniences immediately begin to cut your work in half. Small amounts each week soon pay the balance of Hoosier's moderate price.

Come at once and select *your* Hoosier. Don't be a slave to a hot kitchen another day.
